Full-time employment of the Department of Agriculture numbered 58,157 on January 31, 1951, as compared with 58,590 on December 31, 1950. Part-time and intermittent employment totaled 10,799 compared with 10,889 on December 31, 1950.

Total paid employment on January 31, 1951, was 68,956, a decrease of 523 from the December 31, 1950, figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

The decreases which occurred in the Bureau of Entomology and Plant Quarantine, The Federal Crop Insurance Corporation, the Forest Service, the Production and Marketing Administration and the Soil Conservation Service, was generally caused by the further curtailment of seasonal activities.

The increase in employment in the Bureau of Agricultural Economics was the result of a survey conducted under the Research and Marketing Act.

More committeemen performed service during the reporting month which accounts for the increase in the part-time and intermittent employment in the Farmers Home Administration.

During the period, an increase in employment occurred in the Bureau of Agricultural Economics as a result of the survey conducted under the Research and Marketing Act.

Increases and decreases due to seasonal activities were reflected in the Bureau of Entomology and Plant Quarantine, the Federal Crop Insurance Corporation, the Production and Marketing Administration and the Soil Conservation Service.

Curtailment of funds occasioned a decrease in employment in the CCC price support and storage facilities programs in PMA.

More Committeemen performed service during the quarter which accounts for the increase in the part-time and intermittent employment in the Farmers Home Administration.

3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).

8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Full-time employment of the Department of Agriculture numbered 66,852 on June 30, 1951, as compared with 58,324 on March 31, 1951. Part-time and intermittent employees totaled 14,210 compared with 12,385 on March 31, 1951.

Total paid employment on June 30, 1951, was 81,062, an increase of 10,353 from the March 31, 1951, figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States, and part-time workers as well as those regularly employed.

Increases due to seasonal activities were reflected in the Bureau of Entomology and Plant Quarantine; the Federal Crop Insurance Corporation; the Bureau of Plant Industry, Soils and Agricultural Engineering; the Forest Service; the Production and Marketing Administration; and the Soil Conservation Service.

Curtailment of funds occasioned a decrease in employment in the CCC price support and storage facilities programs in PMA.

Fewer Committeemen performed service during the quarter which accounts for the decrease in the part-time and intermittent employment in the Farmers Home Administration.

STATISTICAL SUMMARY OF EMPLOYMENT

JULY 1951

Prepared by:
Office of Personnel
Division of Employment
7-22-51

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown.

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of reduction-in-force after the last day of active duty specified in the reduction-in-force notice.

Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and County employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, Crop reporters, etc.). The number of those persons will be reported annually, as soon as possible after June 30 each year.

Full-time employment of the Department of Agriculture numbered 66,417 on July 31, 1951, as compared with 66,852 on June 30, 1951. Part-time and intermittent employment totaled 13,278 compared with 14,210 on June 30, 1951.

Total paid employment on July 31, 1951, was 79,695, a decrease of 1,367 since June 30, 1951. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Decreases in employment were occasioned by the curtailment of seasonal activities in the field which occurred in Entomology and Plant Quarantine, Forest Service, Production and Marketing Administration, and Soil Conservation Service. The decrease in part-time and intermittent employment in the Bureau of Agricultural Economics was due to the completion of surveys on manpower and marketing channels. An increase in employment in the Federal Crop Insurance Corporation was caused by seasonal activities.

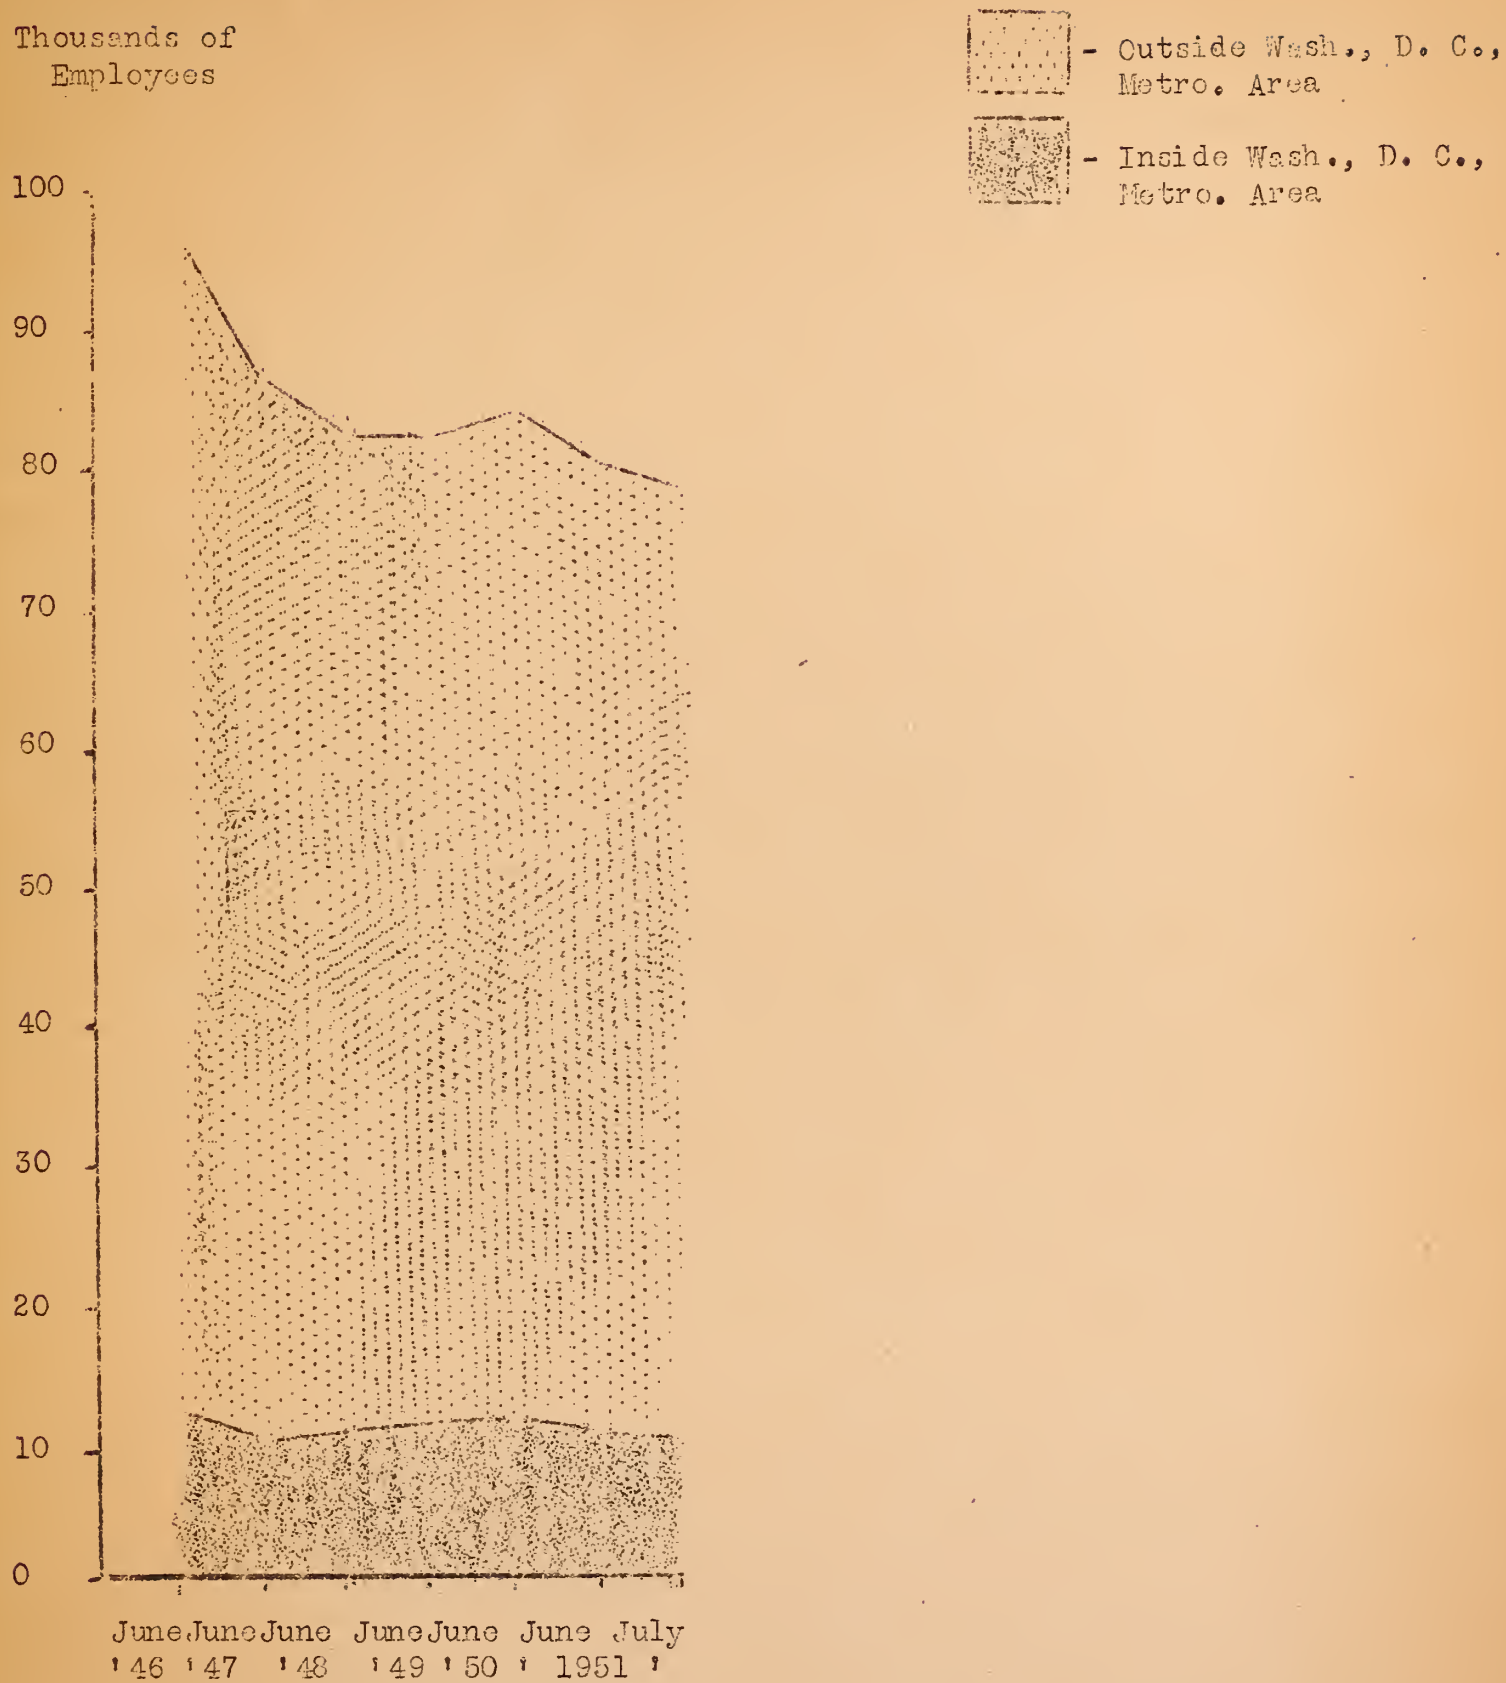

TURNOVER

The separations from the Department for July 1951 of full-time personnel within the continental limits of the U. S., including temporary employees, amounted to 3,582, or 5.5 percent, an increase of 1.2 percent since June 30, 1951. There were 268 separations, or 2.5 percent, in the Washington, D. C. Area, a decrease of 0.1 percent since June 30, 1951. Outside the Washington, D. C. Area, there were 3314 separations, or 6.1 percent, an increase of 1.5 percent since June 30, 1951.

The greatest percentage of separations falls in the terminations group, which consists mostly of the expiration of temporary appointments.

Prepared by:
Office of Personnel
Division of Employment

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Full-time employment of the Department of Agriculture numbered 64,969 on August 31, 1951, as compared with 66,417 on July 31, 1951. Part-time and intermittent employment totaled 12,774 compared with 13,278 on July 31, 1951.

Total paid employment on August 31, 1951, was 77,743, a decrease of 1,952 since July 31, 1951. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Decreases in employment were occasioned by the curtailment of seasonal activities in the field which occurred in The Bureau of Entomology and Plant Quarantine, Forest Service, and Soil Conservation Service. The decrease in employment in the Production and Marketing Administration was due to reduction in force. An increase in employment in the Federal Crop Insurance Corporation was caused by seasonal activities.

TURNOVER

The separations from the Department for August 1951 of full-time personnel within the continental limits of the U. S., including temporary employees, amounted to 3,622, or 5.7 percent, an increase of 0.2 since July 31, 1951. There were 351 separations, or 3.3 percent, in the Washington, D. C. Area, an increase of 0.8 percent since July 31, 1951. Outside the Washington, D. C. Area, there were 3,271 separations, or 6.1 percent, the same percentage of turnover as July 1951.

The greatest percentage of separations falls in the terminations group, which consists mostly of the expiration of temporary appointments.

Full-time employment of the Department of Agriculture numbered 60,691 on September 30, 1951, as compared with 66,852 on June 30, 1951. Part-time and intermittent employees totaled 13,176 compared with 14,210 on June 30, 1951.

Total paid employment on September 30, 1951, was 73,867, a decrease of 7,195 from the June 30, 1951, figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Decreases in employment were occasioned by the curtailment of seasonal activities in the field in the Bureau of Entomology and Plant Quarantine; Bureau of Animal Industry; Bureau of Plant Industry, Soils, and Agricultural Engineering; Federal Crop Insurance Corporation; Forest Service; and Soil Conservation Service. The decrease in employment in the Rural Electrification Administration was caused by normal turnover. A decrease in employment in the Production and Marketing Administration was caused by seasonal activity and reduction in force. More committeemen performed service during the quarter which accounts for the increase in the part-time and intermittent employment in the Farmers Home Administration. The decrease in full-time employment for the Farmers Home Administration was caused by normal turnover.

STATISTICAL SUMMARY OF EMPLOYMENT

OCTOBER 1951

Prepared by:
Office of Personnel
Division of Employment
11-16-51

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown.

1. All persons on a scheduled leave without pay period longer than thirty days.

Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: FMA County Committeemen, and County employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, Crop reporters, etc.). The number of those persons will be reported annually, as soon as possible after June 30 each year.

Full-time employment of the Department of Agriculture numbered 58,856 on October 31, 1951, as compared with 60,691 on September 30, 1951. Part-time and intermittent employment totaled 12,062 compared with 13,176 on September 30, 1951.

Total paid employment on October 31, 1951, was 70,918, a decrease of 2,949 since September 30, 1951. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Decreases in employment in the Bureau of Entomology and Plant Quarantine, Federal Crop Insurance Corporation, Forest Service, and Soil Conservation Service, were occasioned by the curtailment of seasonal activities in the field.

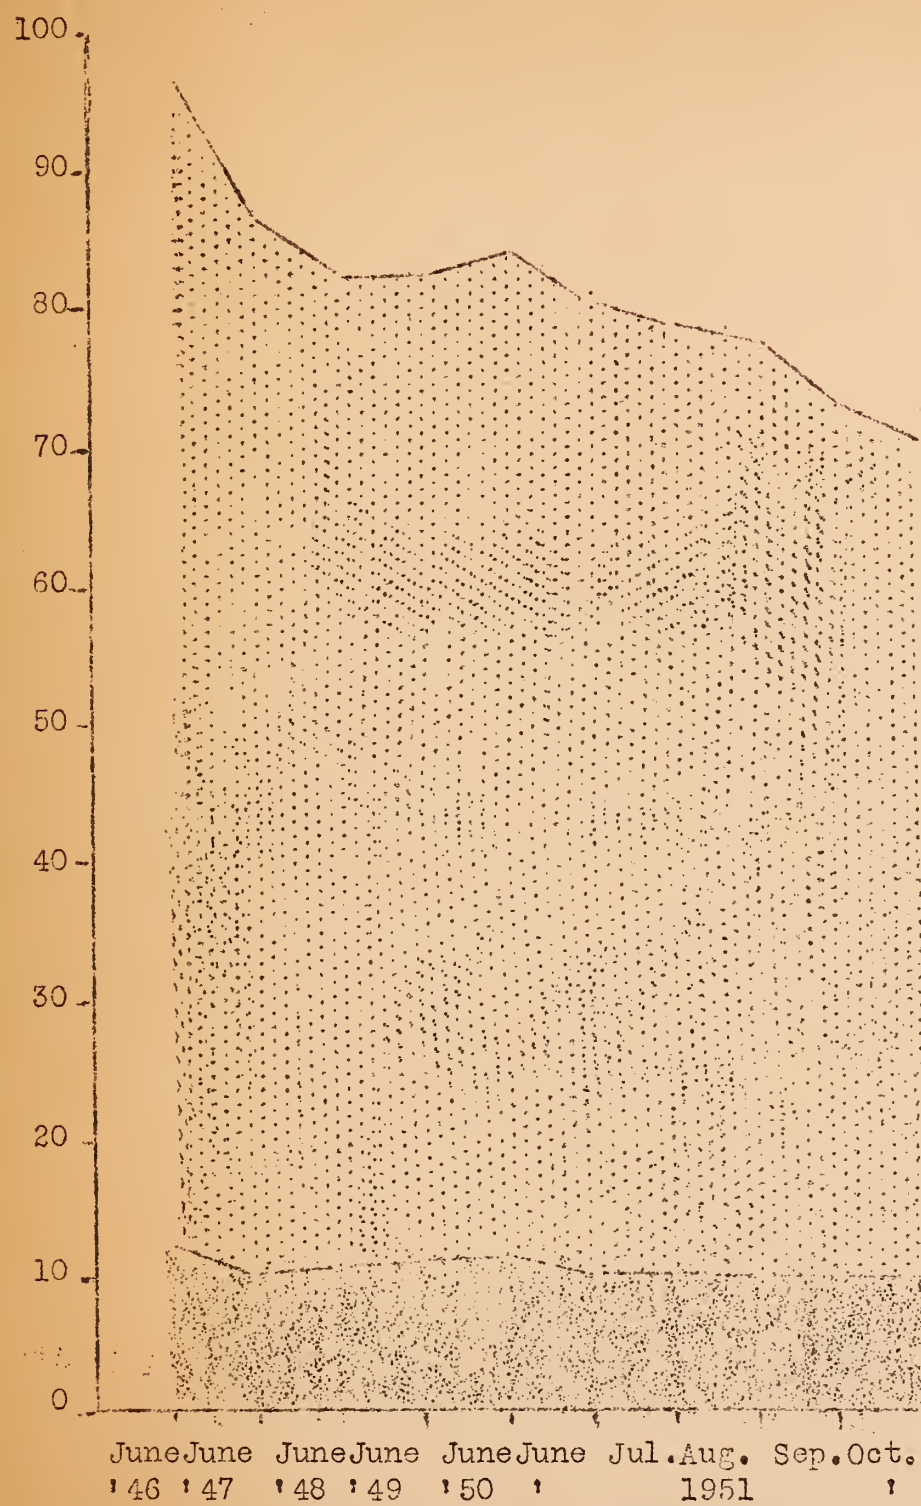

TURNOVER

The separations from the Department for October 1951 of full-time personnel within the continental limits of the U. S., including temporary employees, amounted to 3,317, or 5.7 percent, a decrease of 4.4 since September 30, 1951. There were 180 separations, or 1.8 percent, in the Washington, D. C. Area, a decrease of 1.5 percent since September 30, 1951. Outside the Washington, D. C. Area, there were 3,137 separations, or 6.5 percent, a decrease of 5 percent since September 30, 1951.

The greatest percentage of separations falls in the terminations group, which consists mostly of the expiration of temporary appointments.

STATISTICAL SUMMARY OF EMPLOYMENT

NOVEMBER 1951

Prepared by:
Office of Personnel
Division of Employment
12-17-51

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force),
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown.

The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: FMA County Committeemen, and County employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, Crop reporters, etc.). The number of those persons will be reported annually, as soon as possible after June 30 each year.

Full-time employment of the Department of Agriculture numbered 57,331 on November 30, 1951, as compared with 58,856 on October 31, 1951. Part-time and intermittent employment totaled 11,668 compared with 12,062 on October 31, 1951.

Total paid employment on November 30, 1951, was 68,999, a decrease of 1,919 since October 31, 1951. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

The decrease in employment in the Forest Service was due to further curtailment of seasonal activities.

More committeemen performed service during November, which accounts for the increase in part-time and intermittent employment in the Farmers Home Administration.

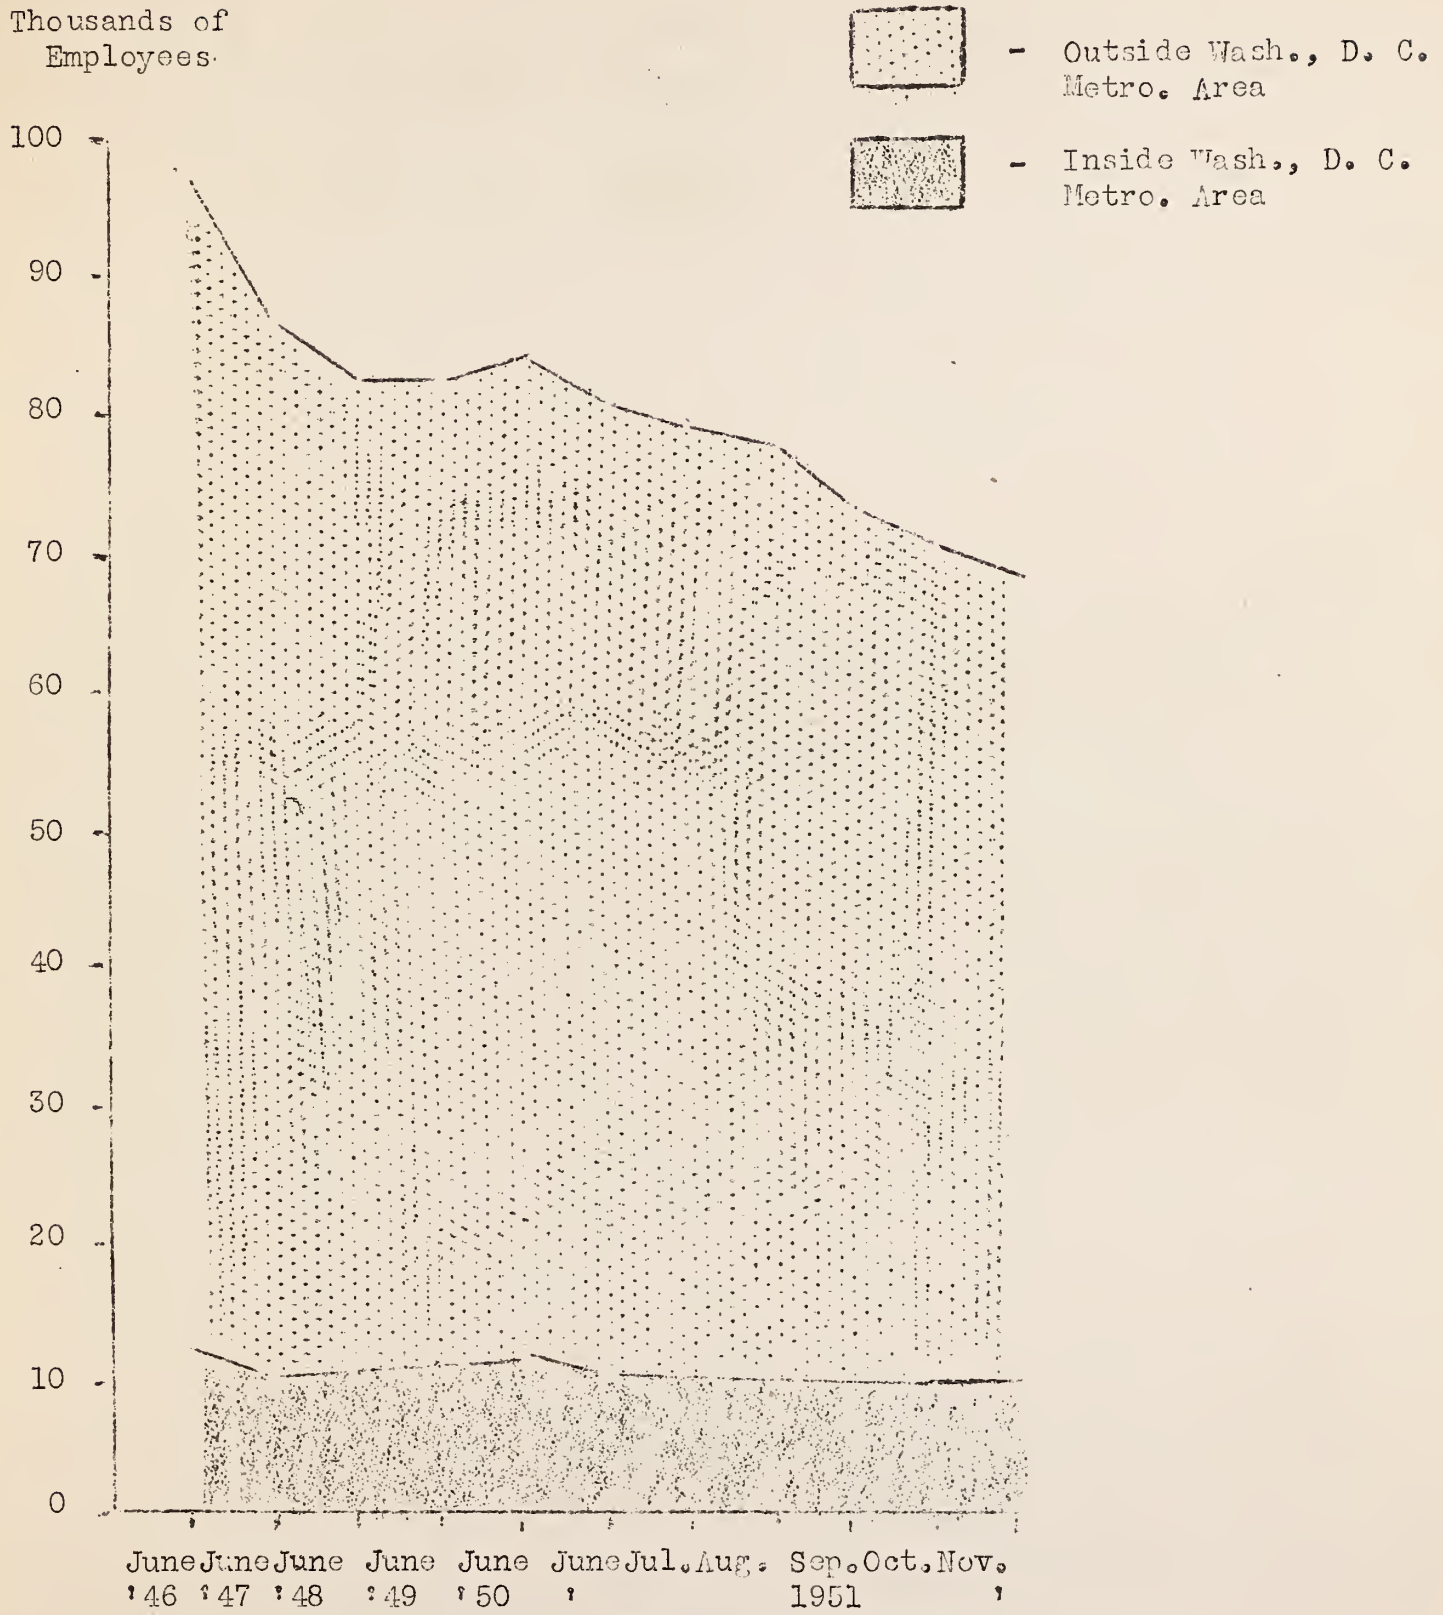

TURNOVER

The separations from the Department for November 1951 of full-time personnel within the continental limits of the U. S., including temporary employees, amounted to 2,469, or 4.4 percent, a decrease of 1.3 percent since October 31, 1951. There were 124 separations, or 1.2 percent, in the Washington, D. C. Area, a decrease of 0.6 percent since October 31, 1951. Outside the Washington, D. C. Area, there were 2,345 separations, or 5.0 percent, a decrease of 1.5 percent since October 31, 1951.

The greatest percentage of separations falls in the terminations group, which consists mostly of the expiration of temporary appointments.

Decreases in employment, due to curtailment of seasonal activities in the field, occurred in the Bureau of Plant Industry, Soils, and Agricultural Engineering; Forest Service; Production and Marketing Administration; and Soil Conservation Service.

Fewer committeemen performed service during December which accounts for the decrease in part-time and intermittent employment in the Farmers Home Administration.
